**Unnecessary Misery.**  
Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason no one likes to take the medicine usually prescribed. HAMBURG'S PILLS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

**Old** And reliable medicines are the best to depend upon. Acker's Blood Elixir has been prescribed for years for all Impurities of the Blood. In every form of Scrofulous, Syphilitic or Mercurial Diseases it is invaluable. For Rheumatism, has no equal.

**An Aid to Bone Mending.**  
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Buckle's Arnica Salve, and my leg is now sound and well." Electric Bitters are sold in 15 cent bottles, and Buckle's Arnica Salve at 25 cents per box by S. J. Hodgkinson & Co.

**The reason** Why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

**Wool Phrases Defined.**  
In the late special report on Wool and the Manufacturers of Wool, issued by Wm. F. Switzer, Chief of the Bureau of Statistics, the phrases common to the wool trade, and especially in the west, are explained and defined by Messrs. Sherman, Hall & Co., of Chicago. Believing it will be of general interest we reproduce it:

American wools as they are received in Chicago and other distributing markets are described specifically as to condition, grade, and character, and more generally as to source of supply or region where produced.

Condition—Refers to the amount of yolk (animal oil peculiar to the fleece), dust, soil and other foreign matter appearing in the fleece as offered for sale. The fleece wool is marketed as unwashed, washed, tub-washed and scoured. Lots not coming under these heads are sold as "unclassified," "rejections," etc.

Washed fleece.—Wool washed on the sheep in cold water before it is shorn. The alkaline portion of the yolk may thus be entirely removed leaving only the free, colorless animal oil in the fleece. A fleece thus thoroughly washed should be free from the color of the yolk. Otherwise it passes as unmerchantable washed.

Tub washed.—The fleeces broken and washed more or less by hand, formerly in a small way, in tubs with soap. Tub-washed varies in condition. If washed in cold water and without soap it is hardly as clean as good "washed fleece" if in warm water and soap, much of the free oil is removed, and it approaches scoured wool in cleanliness.

Scoured wool.—Is treated in a warm, alkaline bath and subsequently thoroughly rinsed in clear water until nothing remains but the clear fiber, absolutely clean and ready for manufacture.

Unwashed wool.—Is the fleece as shorn from the sheep.  
Pulled wool.—Is wool pulled from pelts. The grades from fine to coarse are as follows: Extra, superfine, A super, B super, C pulled, or No. 1. There wools are partially washed in the process of pulling.

Dead pulled.—Wool pulled from the carcasses of dead sheep. Ranks in condition with unwashed fleece. Shrinkage, per cent.—The loss per hundred pounds in scouring any variety of wool, and making it ready for manufacture.

Grades.—Designate the fineness of fiber. The full-blood wools of the West have for a standard the full-blooded French Merino fleece. The fleece resulting from a straight cross between the Merino and Southdown or other coarse woolled sheep of pure blood is termed half blood; and in fineness of fiber is generally intermediate to the two stocks crossed. The in-breeding of a half-blood with a Southdown or other coarse woolled sheep results in a still coarser fiber wool, designated as quarter-blood.

Following this theory of crossing well-defined coarse breeds with the fine breeds brings the full description of grades of fineness as quoted—full-blood, one-half blood, three-eighths blood, and quarter-blood. The types of native or common sheep of the country are a Mexican with a coarse, hairy fleece little better than that of the goat; the New England sheep, brought over and crossed indiscriminately until all definite character was lost; and the Virginias, imported and carefully in-bred for generations from the best English coarse-wooled flocks.

Fleeces from the first two named, and similar mongrel varieties throughout the country, and from flocks carelessly and indiscriminately bred, furnish the coarse and low wools of the country, amounting in weight to perhaps an eighth of the clip, or, say 40,000,000 pounds. The larger part in the West comes from New Mexico and adjacent States and Territories, and is known in grades as carpet, blanket and Western sorts. The coarse and low grades in the Eastern States come from indiscriminate breeding of small flocks who change flocks and bucks as necessity or whim may compel or dictate.

Grades.—As commonly known and recognized in American markets with the blood designations, when applied, are as follows: Full blood Saxony and Spanish Merino (XX and XXX) very finest; French Merino full-blood (X, fine); half-blood, fine medium, No. 1; three-eighths blood (intermediate grade)

**Give Them a Chance!**  
That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon it.

**Brace Up.**  
You are feeling depressed, your appetite is poor, you are bothered with head ache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and leave you in worst condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters and only 50 cents a bottle at S. J. Hodgkinson & Co.'s Drug Store.

**Renews Her Youth.**  
Mrs. Phoebe Chesley, Peterson, Clay county, Iowa, tells the following remarkable story, truth of which is vouched for by the residents of the town: "I am 75 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and lameness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed all disease and pain." Try a bottle, only 50c at S. J. Hodgkinson & Co.'s drug store.

MONDAY, NOVEMBER 26, 1887

SOME of the thinking people of Nevada are beginning to realize what they did when they refused to send Adolph Sutro to the United States Senate. Before Mr. Sutro left this State, he was worth nearly \$3,000,000. He brought to the State from England upwards of \$5,000,000, nearly all of which was expended among the laboring classes. He aspired to a high office of trust, but the honor was denied him. He removed to San Francisco, where he made a home, and to-day he is spending his wealth beautifying a portion of that city. Half a million dollars would not cover the sum he has expended improving the barren hills back of the Cliff House, and his many public acts are pointed to with pride by those having the welfare of the city at heart. Recognizing his value as a citizen San Francisco was not slow in conferring on him several honors, the first of which, he believe, was a Commissionership of the Golden Gate Park. True, the office came to him from the Governor of California, but it was at the solicitation of very prominent and substantial San Franciscans who recognize worth when they see it.

THE projectors of the new railroad which is to run between Salt Lake City and Los Angeles are in San Francisco. They personally surveyed the proposed route through Nevada, but are reticent as to the exact portion of the State the road is to develop. Speaking of the project the *Call* says:

Rumor connects the scheme with Jay Gould, whose well-known antipathy to the Atchison system, combined with his alleged interest in the Denver and Rio Grande, suggests the idea that he is anxious to control a transcontinental railroad and be able to reach the Pacific Coast over his own lines. The cut-off would make a short line into Los Angeles and would undoubtedly injure the Santa Fe system most materially, while enhancing the value of both the Union Pacific and Denver and Rio Grande.

The people of Los Angeles are preparing to give the new company every assistance, while the residents of Pasadena have granted depot grounds, etc., for the purposes of the road. So far as has yet been ascertained the road is to take much the same course as the Los Angeles and San Gabriel line to Pasadena, and will then strike into the bluish and delicious Mojave desert through one of the following passes: San Gabriel canyon, Arroyo Seco or the Paeonias pass.

Mr. Trumbo, in a recent interview, stated that the road when completed would be 664 miles in length. The preliminary surveys had all, he stated, been made, at a cost of about \$200,000. All right of way had been secured and the line will open up an immense territory in Utah, Nevada and Southern California. Mr. Trumbo states, also, that the prospects of the road for a paying local business are most promising.

It is believed that Carlisle will be elected Speaker by a united Democratic vote, and it is no secret that he does not propose to enforce any particular tariff policy upon the party by the special recognition or the special rejection of prominent men because of their views on the tariff. There will be no attempt to frame a tariff bill or bill reducing internal taxation until there can be the fullest and frankest conference of representatives of all shades of conviction on the subject.

TALK about mind being superior to matter—nonsense! The baseball players have made more money in the United States, this year, than the best actors and singers—and all with their legs and hands.

To be Divided.  
Says the Biggs (Cal.) *Argus*: Preble & Young, of the Reno GAZETTE, and Marion Biggs, Jr., paid the *Argus* office a visit yesterday. The two former are the gentlemen who purchased the 2,700-acre tract of Mr. Biggs a short time since. They were here with a view to making arrangements for the subdivision of the land into small tracts and offering it for sale. The gentlemen evidently mean business. To those of our readers who may not know the land we will say that the tract commences one and a half miles east of the town of Biggs and runs to the bank of Feather river. The tract is the equal in quality of any land in Butte county, and with the experience of 16 years in tilling just such land in this county, we have no hesitation in saying that every acre of it will produce, without irrigation, any of the fruits grown in any part of the State of California. We are pleased to know that at least one tract of first quality land in Butte county is to be put up and offered for sale, confident that its quality is such that eastern men seeking lands for homes instead of speculation, who know good land when they see it, will look no further for lands upon which to build family-supporting homes.

J. H. McMillin, Democratic candidate for Congress last Fall, passed through from Winnemucca for Carson this morning.

## NEWS OF THE DAY.

### Terrific Boiler Explosion in a Milwaukee Hotel.

#### TWO PERSONS KILLED.

Herr Most's Trial Progressing Slowly.

### A BUILDING BLOWN DOWN

#### Madame Gerster's Voice Gone Through Nervousness.

[PRESS DISPATCHES TO THE GAZETTE.]

**Claimed Mackay as His Friend.**  
PITTSBURG, Nov. 25.—A well-dressed young man giving the name of John W. Armytage, of San Francisco, was arrested here last night for attempting to pass a bogus check for \$500. Armytage came here several days ago with letters from John W. Mackay, the California millionaire, which he presented to Black & Baird, real estate dealers. He claimed to be an agent of Mackay's, and intimated that he was commissioned to purchase a site for a cable station. Yesterday afternoon he called again, and asked them to cash a check for \$500, as he was in need of funds. The check was signed by Mackay, and was drawn on the Bank of California, Black & Baird telegraphed to Mackay, and an answer was received last night, saying that Armytage was unknown. He was arrested at the Hotel Anderson and is now in jail. It is supposed the letters in his possession are also forgeries. Armytage is 28 years of age, weighs 145 pounds and is 5 feet 11 inches in height.

**A Boiler in a Hotel Explodes.**  
MILWAUKEE, Nov. 25.—The boiler which exploded at the Kirby House was in the kitchen range. The explosion blew out the portion wall, 30 feet wide and from the ground to the fourth story. One end of the dining-room was wrecked, all of the tables being knocked over and the dishes smashed. Most of the guests had finished breakfast, and as far as known, none were hurt. The kitchen of the hotel was completely wrecked. There were about a dozen girls in the room at the time, and all were buried beneath a mass of brick and mortar, and when taken out by the fire department all were so badly injured that it is uncertain whether any can recover. Mr. Beckwith, the proprietor of the hotel, was also seriously injured. Two cooks are still missing. The accident was caused by the freezing of the feed pipe.

**Cold Weather East.**  
ST. PAUL, Nov. 27.—The cold wave reached here at about midnight last night, and at 6 A. M. the mercury had fallen to 10 degrees below zero. The weather bulletin issued here at an early hour this morning shows the following below zero: At St. Paul, 8 degrees; Huron, Dak., 14; Moorhead, 16; St. Vincent, Minn., 22; Bismarck, 14; Ft. Buford, 20. In Montana the temperature is rising again, the mercury standing 16 above at Helena.

**Chicago, Nov. 25.**—At 6 o'clock this morning the mercury was only two degrees above zero. The Signal Service predicts the cold snap will last through to-night, but hopes for a rise in the temperature to-morrow. Throughout the Northwest the temperature has fallen about 45 degrees.

**Herr Most's Trial.**  
NEW YORK, Nov. 25.—The trial of John Most, the Anarchist, was resumed again to-day. The court-room was thronged. Many women were present, but there was a diminution in the glare of red ribbons and flowers displayed. Frederick Harting was the first witness called. He testified that he went into a saloon, in the rear of which Most was making a speech, and secured by curiosity went into the meeting held there. He said that Most did not use the violent language charged against him. He had never seen Most before, and was not an Anarchist, but might yet become one.

**Postoffice Statistics.**  
WASHINGTON, Nov. 25.—The annual report of First Assistant Postmaster General Stevenson shows that the number of postoffices established during the past fiscal year was 3,043. The increase in the whole number was 1,543. The whole number of postoffices in operation on June 30, 1887, was 55,157. The appointments of postmasters during the year was as follows: On resignations and commissions expired, 6,803; on dismissals and suspensions, 2,584; on deaths of postmasters, 580; on the establishment of new offices, 3,043.

**Building Blown Down.**  
GALVESTON, Nov. 25.—A special from Mincola, Texas, says: Late last night a heavy wind storm visited this town, blowing down a hall during a colored people's dance. Of 70 in the building five were killed, and about 20 injured. A six of the injured have legs or arms broken.

**President Grevy's Successor.**  
PARIS, Nov. 25.—The Congress of the Senate and the Chamber of Deputies will meet at Versailles on Friday to elect a successor to President Grevy. Grevy's letter of resignation will be short. He will disclaim all responsibility for the consequences of his retirement.

**Does Not Like Gladstone's Attitude.**  
LONDON, Nov. 25.—Charles Carmichael Loeblis, a member of Parliament for Dundee, and a Liberal and Home Ruler, has resigned, as he says, because he cannot steadily support Gladstone, who, by his immoderate attitude, hinders the granting of Home Rule to Ireland.

**Foreign Affairs.**  
BERLIN, Nov. 25.—The forged document sent by the Czar has been forwarded by a foreign officer to Prince Bismarck at Friedrichsruhe. M. Clemenceau and General Boulanger have become reconciled. They breakfasted together yesterday.

**Gladstone to Visit America.**  
BUFFALO, Nov. 25.—Carrie A. Gillig, of the American Exchange, London, is in this city. In a conversation with a reporter Gillig stated that his present visit to the United States was for the purpose of perfecting the necessary arrangements for a visit to the United States by Gladstone in April next. One thing that tended to bring this about was the fact that his physicians long advised him that an ocean voyage would be beneficial to his health, and as he has always cherished a desire to visit this country, now that his dread of the ocean has been conquered, he embraces the opportunity eagerly.

**Stanley's Men Dying from Starvation.**  
LONDON, Nov. 25.—The last mail advice received from the Upper Congo says that Tippu Tib had not yet sent the promised couriers to Stanley's rear guard at Yamuya to convey stores for Emin Bey, and that Stanley had proceeded without them. Many of the men had died from starvation.

**Chinese Affairs.**  
SHANGHAI, Nov. 25.—It is stated that the Chinese Government has arranged for a loan of 6,000,000 taels at 5 1/2 per cent. for 20 years with a Hongkong and Shanghai bank.

**Search for the British Gun Boat Wasp.**  
It is probable that Nankin will be opened as a treaty port.

**Government Telegraph System.**  
NEW YORK, Nov. 25.—T. V. Powderly is in this city collecting information to be used by the Knights of Labor in their attempt to have the Government to establish a telegraph system of its own.

**Gerster's Voice Gone.**  
NEW YORK, Nov. 25.—Madame Gerster has announced that her proposed concert tour throughout the United States has been abandoned owing to the breaking down of her voice. Abbey says that her trouble is nervousness, and hopes that rest will restore her voice.

**Death of a Noted Gambler.**  
George Duval, "a monte man from way back," died in St. Louis last week. He is said to have outwitted the most notorious sharps. He and Canada Bill, for years, followed the Central and Union Pacific, making their headquarters by turns at Omaha, Salt Lake, Reno and San Francisco. Finally their depredations became so numerous and the complaints against them so general, that the very strictest measures had to be taken by the railroad lines to rid the cars of their presence. In time they found their unlawful business unprofitable, and finally abandoned it altogether.

**Vandalism—A Warning.**  
THE GAZETTE learns that vandal acts are quite common in the several cemeteries of Reno. Some time ago the foundation stone for a head stone was placed in position in the Odd Fellows' graveyard. Some despicable wretch tore it out and threw it into a ditch near by. Several days ago the corner ornaments on an iron railing that encloses a grave in the Catholic graveyard were torn from their fastenings by the aid of a pick and thrown off into the grass. The grave is that of a child whom Patrick Keating dearly loved. To the GAZETTE reporter this morning Mr. Keating said: "I am not a bad man, nor do I wish to be considered such; but if I ever catch anyone doing damage to that grave—I may give him time to say his prayers."

**The N. & C. Railroad.**  
We get the following information from the *Lassen Advocate* of the 24th instant: Work on the Nevada and California Railroad is progressing very slowly. Winter quarters have been erected near the McNamar place, and it is the intention of the company to continue the work as long as the weather will permit. There are now employed 150 Chinamen, 50 white men and 60 horses on the work. The grading has not yet been completed to McNamar's field.

**THE WASHOE SEERESS.**

**A Hasty Interview With Her Yesterday at the Depot.**

Mrs. L. S. Bowers, the Washoe seeress, left yesterday for the West. While at the depot, waiting for the train, a GAZETTE reporter approached her and asked if she knew that the Mansion had been sold to Theodore Winters.

"Yes, I read it in the GAZETTE. It has fallen into good hands. Theodore Winters is a good man. If I were in need of a home I know of no old friend I would rather ask it of than him. Mr. Thompson, who sold it to him, is also a good and an enterprising man. Do you know that Bill Thompson is yet to become prominent as a public man and politician?"

"No, what high office do you believe he will succeed in getting?" ventured the reporter.

"Well, it will not be an office that will take him to Carson. He will go to Washington."

"How about Mr. Powling?"

"It looks to me as if Mr. Powling is going off somewhere else, and engage in more active business. If he does it is going to break up any political future he may have mapped out."

"What do you see in the future for Reno?" asked the reporter, seeing that the seeress was willing to talk.

"Reno, sir, will become, in a few years, one of the most flourishing towns on the coast. Remember what the old woman tells you. But there is one thing your citizens must always bear in mind. They must not stand in their own light by holding their property at too high figures nor by failing to encourage enterprises as they should. Yes, Reno's future is bright. It is bound to become a city of good proportions."

"What, in your opinion, is going to make it a city?"

"There are several things, my boy. The Peavine District has rich mines, but more capital is required to develop them. Get men who were born under right planets, like John Mackay was, to develop them, and you will see big ore bodies there. Some men, you know, could not develop an ore body if they were within two feet of it. Why? Because they were not born under the right planet. Jupiter is powerful, my boy. Judge Marshall has a big body of ore in his mine, but I fear he will never have capital enough to reach it, for he is close to a large body of water that will require big money to overcome it. Your reduction works will be enlarged three times what they are to-day. Then you are going to have more public buildings and workshops, and some of them will be here within two years. I see this."

"What else do you see in the future of interest to Renoites?"

"My boy, one of your prominent men is going to die next year. Everytime I think of it I can see his face, but it won't do for me to name him."

"Oh, by the way," said the old lady after staring vacantly into space, "do you know what I predict concerning Senator Stewart?"

"No, what is it?"

"Senator Stewart, will, if he lives, succeed himself, and if he lives ten years longer he will hold a higher public trust than he does to-day."

"But, my boy, there's the train and I must get aboard. When you come to San Francisco, come and see me. I am always glad to see Nevada friends."

**BREVITIES.**

**Local and General Intelligence.**

Less than \$600 taxes went delinquent in Elko county this Fall.

The Richmond Company's furnaces at Eureka have closed down until Spring.

The ladies of the Trinity Church Guild are said to have cleared about \$250 by their recent bazaar.

The Wenban mines at Cortez, Eureka county, are said to be netting from \$30,000 to \$40,000 per month.

No particular change in the assay value of the Con. California and Virginia worked last week. It was \$32 20.

A mining man just in from Bodie says that the population of that once flourishing town has dwindled to about 700.

The heavy wind from the southwest and the dust to-day made it very disagreeable for pedestrians. Heavy rains are reported in California.

Captain W. S. Mills and a party of friends went out to the Gray Eagle mine this morning to inspect the recent development of rich ore.

The name of Miss Ada Finlayson was, by mistake, omitted in Saturday's GAZETTE from the music and literary program rendered last Friday evening at the residence of Mr. L. D. Brown.

**A Chronic Tendency Overcome.**

Many persons are troubled with a chronic tendency to constipation. They are of bilious temperament. The complaint to which they are subject, though easily remediable by judicious treatment, is in many cases aggravated by a resort to drastic purgatives and cholagogues. As the human stomach and bowels are lined with a delicate membrane, and not with vulcanite, they cannot stand prolonged drenching with such medicines without serious injury. Nothing restores and counteracts a habitual tendency to constipation so effectually as Hostetter's St. Mach Bitters. Its laxative effect is gentle and progressive. It neither convulses nor weakens the intestines, and its effects are unaccompanied by gripping pains. It arouses the liver when the organ is sluggish, promotes digestion, and encourages appetite and sleep. For fever and ague, kidney troubles, nervous complaints and incipient rheumatism, it is incomparable. Take a wineglass before meals and see how soon you will relish them.

**What Brandreth's Pills Do.**

In Brandreth's Pills the true life medicine has been found, composed as they are of numerous vegetables so combined that each multiplies the virtues of the rest. They never can do any harm. Their action is always the same, no matter how long or in what doses they are taken. They purge away the waste particles of the system. They recruit the animal vigor and arrest the progress of decay. They purify the blood. They stimulate the liver. They invigorate digestion. They open the pores. They make the bowels do the work of the kidneys, thus giving those organs an oftentimes needed rest. One or two a night for a week will demonstrate their power and is generally sufficient to cure ordinary diseases.

**The Jury Disagreed.**

A telegram from Elko says: After a trial which lasted eleven days, of George W. Lewis, foreman of the Tripoli mine, for the murder of George Piccolo at Highland, Elko, county, on September 3d, the jury after being out twenty-four hours failed to agree, and were discharged. The jurymen stood five for murder in the first degree, one for murder in the second degree and six for acquittal.

The evidence showed that Lewis, after a dispute with Piccolo, vowed an intention of killing the latter, walked two miles at 3 o'clock in the morning, procured a revolver, returned to Piccolo's cabin and fired four shots, killing Piccolo instantly. Lewis then went away, but returned again, raised the dead man's head and fired the remaining shot in the pistol through Piccolo's brain. The defense was insanity.

**Ling's Hasn't Found Hell Yet.**

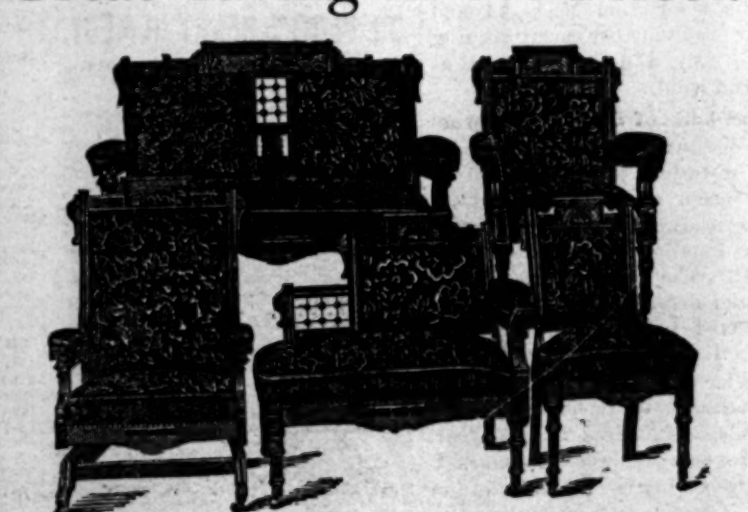

At a spiritualistic seance held in St. Louis the other day, after the spirit of Thomas Jefferson had condemned the land theory of Henry George, the alleged shade of Louis Ling, the Anarchist, appeared. "I desire to say," he remarked in a natural tone of voice "that I did not intend to harm anyone with the bombs found in my cell; I merely intended to cheat the gallows out of all its victims. How I procured these bombs is my business. I did not get them from the women, however; that much I will say. I do not need any more sympathy than I wanted prayers. I can do my own sympathizing when I have need of any. I will not describe the sensation of death. It seems as if I were asleep for a few days. I am all right now. Proudhon says that I am in quite a low sphere, much lower than he is, but that I can make progress if I try. If there is any hell over here I have not yet heard of it, and do not believe there is any such thing. I am satisfied as I am."

John Sparks, the cattleman, came in from the eastern part of the State on this afternoon's train.

J. C. Smith left this afternoon for California.

**Great Saving in our Prices.**

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$200 bedroom suite.
